 - Chairman Dean- have been working at COMCD on our drought measures and resolutions. We are all good with the rate of the lake emptying out for the next couple of years. The next step will be sending out the final plan to 3 different cities on what the plan will be for continued drought issues. We are not in danger of running out of water. October is the annual fish fry that everyone is invited to.

4. Manager's Report:

Departmental Reports

- City Manager JD Hock we do not use the water allocation that we have so we are doing well there. The OWRBDEQ meeting we had a few weeks ago with the financial advisor and we are getting that information ready to be reviewed to take out that loan for water treatment plant updates. Then it will be ready for a final vote once reviewed. Announced updated trash pickup schedule due to holiday.
- Chairman Dean asked about getting street sweeper out to clean streets after the mess from the water main breaks. Asked if it could be put in as policy to be a regular thing.
